Fatal Railway Accident.

CHICAGO, May 1.—The *Times* of Covington special says reports received there last night at the telegraphic headquarters of the Chicago, Alton & St. Louis railroad, say a terrible accident happened near Chicaco about 6 o'clock yesterday evening. As the switch engine of the Chicago, Danville & Vincennes railway was coming out of Chicago, when at 25th street the engine jumped the track from some unknown cause and was completely overturned; eight or ten passengers were on the engine, none of whom had time to jump. Five are reported killed, lying under the ponderous locomotive, two escaped with terrible injuries, one of the engineers having both legs broken. One of the killed was fireman of the engine, and another the Chicago and Alton night operator at Danville crossing, named Fahey.

The Damage Modified.

CHICAGO, May 1.—It is learned this morning that the railroad accident reported last night was not as bad as then supposed. Only two were killed—W. C. Fahey, telegraph operator, and Thomas Holtzey, fireman, but four others are badly bruised and some may die of injuries.

Besides these, ten assignments were filed on which the aggregate indebtedness was $400,000, and there were eight adjudications in bankruptcy, the liabilities being $250,000.

Reported Sale of a Battery to Russia.

NEW YORK, May 1.—The *Sun* says according to a rumor circulated extensively yesterday and believed by some, the Stevens battery has been sold to the Russian government for one million dollars. This report is emphatically contradicted by W. W. Shippen, one of the executors of the Stevens estate. The battery lies in Hoboken drydock, in which it, having never been launched. It would not be armor and armament to be ready for use, the whole would cost between $800,000 and $1,000,000.

Russian Musicians Arrived.

The steamship *Adriatic*, which arrived Sunday, had about a dozen Italian musicians, who have been enlisted in Italy to form a portion of a band for service in the U. S. army. They were met at Castle Garden by two sergeants of the regular army, and escorted to Governor's Island.

Russian and Turkish Ministers in New York.

The *Herald* says: The Russian minister, Catacazy, is still in the city, staying at the Fifth Avenue Hotel. His visit is supposed by many to have political significance, either in connection with the movements of the Russian fleet or the purchase of arms for the Russian government. He refused to be interviewed.

The Turkish minister is also in town, and it is rumored his visit is connected with the sale of the Stevens battery and purchase of arms and ammunition.

The Turkish consul in this city, said to be dealers in all kinds of supplies have called upon him, asking for contracts to furnish the Turkish government, but he has as yet received no authority to purchase anything. The arms manufactured at Providence for the government were contracted for at a private sale. When asked if he thought there was danger of the capture of the arms by Russian men-of-war, Sheerer said he had not heard of any Russian cruisers in the Atlantic, nor of anything the Russian fleet now here has for its intentions. The vessels that carried the arms are fast sailers, and at Gibraltar they would be met by a Turkish convoy. Large numbers of Hungarians and Poles, he said, came to his office to be taken into the Turkish army. If Hungarians should be enemies of Russia he could understand, but the large number who applied were from Austria. He was not authorized to enlist or transport any men. Neither the Turkish minister or myself had received any instructions to purchase the iron-clad Stevens battery.

Further Details of the Mississippi Tragedy

JACKSON, May 1.—On Thursday evening John W. Gully, a prominent citizen of Emporia, was assassinated by an unknown party. The excitement is intense and every means is taken to discover the murderer. On Saturday two negroes made an affidavit that Benjamin Rush, a white man, did the deed, and that Judge Chisholm, Republican candidate for Congress from the third district, his son, Gilmer and Rosenbaum instigated the crime. Chisholm and son were arrested and, with the women of the family, who wished to share the imprisonment, were put in jail. On Sunday Gilmer came to the jail to see the Chisholms. A warrant was ready for him, but when he was at the jail a mob set upon and killed him, overpowered jailor, attacked Chisholm, mortally wounding him and killing his son. Miss Chisholm was shot and killed, and Dr. Rosser and Mrs. Chisholm were severely wounded. A son of Gully, who was assassinated, was also seriously wounded. Rosenbaum and Hopper, another alleged conspirator, were carried to the woods by the mob to extort from them the whereabouts of Rush, the alleged assassinator of Gully. When last heard from, some weeks ago, Rush was in Arkansas. It is supposed Rosenbaum and Hopper were hanged. It is reported that a horrible state of affairs is existing throughout that section. The people are wild with excitement, and other haugings will probably follow.

CANADA.

Correspondents of English journals represent the war feeling in Russia as intense. From St. Petersburg the London *Daily News* has this:

There was never such a popular war as this will be. We have no brag, no bluster, no excitement on the streets, no processions, no singing, no shouting, but quiet resolution is depicted on every face, and is manifest in everybody's language.

THE EASTERN WAR.

A Turkish Complaint.

Then follows the English statute instituted to regulate her majesty's subjects during hostilities. The proclamation concludes with an admonition to British subjects not to disobey the command at their peril.

Fighting at Kars in Asia.

ERZEROUM, April 30.—The Russians having concentrated and advanced their siege train, have attacked the Turks before Kars. The battle commenced at daybreak on Sunday. Details are momentarily expected. Muskra Pasha is in Kars.

Gladstone and English Policy.

LONDON, April 30.—In the House of Commons Gladstone gave notice that he should introduce five resolutions in effect that England has just cause of complaint of the conduct of the Porte. Reference is made to Lord Derby's dispatch of last September, relating to Bulgarian massacres, and the resolutions proceed to declare that until there is change of conduct and guarantees to be given, the Porte has no moral or material claim to the aid of the British crown; that in the midst of complications and with war actually began, the House earnestly desires that the influence of England in the councils of Europe be employed for the effectual development of liberty and local self government in the disturbed provinces and harmonious action among European powers, with a view of exacting such measures of government from Turkey as are necessary for the purpose of humanity and justice, for effectual defence against intrigue and for security of the peace of the world. Gladstone stated that the resolutions would be submitted solely on his own responsibility. Sir Stafford Northcote appointed Monday next for debate on resolutions.

Russia does not Retaliate.

ST. PETERSBURG, April 30.—Notwithstanding Turkey's action, Russia unhesitatingly permits Ottoman subjects to remain in Russia under British protection.

The Czar's birthday was celebrated yesterday with unbounded enthusiasm and loyal demonstrations throughout the empire.

The municipality of St. Petersburg voted a million and a half of roubles for the wounded.

Russians Expelled from Turkey.

CONSTANTINOPLE, April 30.—The Porte intends to issue notice to Russian residents in Turkey who are unwilling to submit to Ottoman laws that they must leave Constantinople within eleven days and the provinces within twenty-one days.

Caring for the Wounded.

PARIS, April 30.—A convoy of nurses and ambulances, sent out by the International Society, has started for the seat of war.

Terrible Tragedy.

MERIDEN, Miss., April 30.—An old feud culminated in a terrible tragedy yesterday at De Kalb, Kemper county, Miss. On Thursday last John W. Gully, a prominent Democratic citizen, was waylaid and assassinated. From affidavits of two negroes several alleged conspirators in an assassination were arrested yesterday afternoon. A large party of men fired upon the prisoners killing J. P. Gilmer, A. McLellan, John Chissolm and David Rosser, and mortally wounding Wm. M. Chissolm, all white Republicans except Rosser who was a Democrat.

Object of the Italian Occupation of Albania.

ROME, April 30.—The *Divito*, minister's organ, absolutely denies the truth of the recent statement concerning Italy's intention of occupying Albania. The object of the concentration of the Italian squadron in Southern ports is to give the crews opportunity for drill and render it possible, in case of need, to dispatch some vessels to points where a display of the Italian flag might be useful to the interests of Italian subjects.

Russian Troops Moving.

LONDON, April 30.—A dispatch from Bucharest dated Monday, says the Russians are advancing very slowly. The left wing rests at Reni. Grand Duke Nicholas will establish his headquarters at Jassy to-day, whence they will afterwards be advanced to Plotz.

The Danube Obstructed.

A special from Galatz reports that the passage down the Danube is now impossible owing to obstructions placed by the Russians at the mouth of the Pruth.

Bridging the Danube.

IBRAIL, April 30.—The Russians are building a bridge over the Danube here.

Preparing to Attack Odessa.

VIENNA, April 30.—The Turkish Black Sea squadron will attack Odessa. Five thousand Russians are busy repairing the inundated railways.

Inspecting Garrisons.

The Austrian Archdukes Albrecht and Wilhelme are expected on the Croation frontier to inspect the garrison. This is considered to augur important events. Engineers are adopting Roumanian to Russian railway gauge. This will first be done from Miraclisti to Busco.

Jews Killed.

Roumanians killed 8 and wounded 11 fugitive Jews near Giorgevo.

Telegram from the Czar.

The Czar has telegraphed the Prince of Montenegro: "I am firmly resolved this time to realize the sacred mission of Russia and my predecessor. God will aid us.

Kalafat Occupied.

Roumanians have reoccupied Kalafat.

Turko-Italian Diplomacy.

ROME, April 30.—Correspondence is progressing between Italy and Turkey in consequence of the refusal of the latter to permit Russian subjects to remain under protection of Italian consuls in places where there are no German consuls.

The return of the Italian ambassador to Constantinople will be delayed some time.

A Consul's Opinion.

Felxoto, recently at Roumania as Consul General, thinks the European war will certainly be general. He espouses the Sultan's side. He doubts reports of the impregnability of the Turkish fortifications of the Danube.

Turkish Gunboats Quit the Danube.

It is reported that Turkish gunboats have left the Lower Danube, fearing torpedoes and the Russian heavy artillery.

It is believed that the slow movements of the Russians is due to an intention to give the Turks ample time to reflect upon their present situation.

Odessa Besieged.

A special from Odessa says, by orders received on Saturday, Odessa has been declared in a state of siege.

Arabians to the Rescue.

An Alexandria correspondent says great excitement prevails at Jedda and in all the towns of Arabia. Recommittering and drilling is progressing everywhere, and large numbers are volunteering. The sheik of Mecca sends the Sultan 4,000 fully equipped troops.

Cause of Suspension.

PARIS, May 1.—A dispatch states that the cause of suspension of the *Golos* was an article declaring the necessity for making as vigorous war against the Russian administration as against Turkey, so as to suppress abuses and robberies, which were the principal causes of Russia's defeat in the Crimea.

How the Pasha Ran the Blockade at Galatz.

LONDON, May 1.—The following is the account of Hobart Pasha's running the blockade at Galatz in his steamer *Rettiuma*. The admiral left Rustchuk at night approaching Galatz, which was guarded by torpedoes and heavy batteries commanding the river. The lights on the steamer were extinguished, but a rocket on the Roumanian shore showed that the steamer was discovered. Coming abreast of the batteries the heavy guns began to fire, but the *Rettiuma* was so close in shore that the gunners were unable to depress their pieces sufficiently for the shots to take effect. The admiral fired only ten shots and the *Rettiuma* passed to the Black Sea safely.

A Great Sacrifice Ready.

GALATZ May 1.—A Russian general says the Russians are fully prepared to sacrifice 30,000 men in forcing the passage of the Danube, should circumstances compel them to immediate action in that direction.

Servia not to be the Seat of the War.

LONDON, May 1.—A Vienna correspondent says: The Porte has now given official assurance that it does not intend to carry on the war on Servian territory.

The Prophet's Standard.

Layard has advised the Sultan not to unfold the Prophet's standard, as it would end all attempts to localize the war.

A dispatch from Vienna says the Sultan declared that he would not unfurl the standard of the Prophet to arouse Ottoman feeling until all other means of defense have failed.

Joining the Russians.

LONDON, May 1.—A telegram from Tiflis states that the Russian administration has been established in the District of Schouragel, near Kars. Russians occupy Djwin Digvirs, in Turkish Georgia, the inhabitants receiving them as friends, and surrendering their arms to them.

The Work in the British Navy.

A special from Liverpool says the officers of the transport service are now there surveying vessels which would be available for government service in the removal of troops in event of war. This is being done purely as a precautionary measure.

Bismarck's Statue.

A colossal statue of Prince Bismarck, which was exhibited at Philadelphia last year, was unveiled at Kissenq yesterday, close to the spot where Kuhlmann attempted to assassinate the Prince.

Poti not Bombarded.

Grand Duke Alexis received on Sunday a dispatch from his father the emperor, stating that no bombardment of Poti at all has taken place, not a shot having been fired there, and that nothing more than ordinary skirmishes between the vanguards of the two armies has yet occurred either in Asia or Europe.

The Right of Search.

CONSTANTINOPLE, May 1.—The Porte reserves the right to search suspected vessels both on the coast and at sea.

A Geographer on his Travels.

LONDON, May 1.—Mitchell, the American geographer, has arrived at Suez. He says the report of the capture of Gando by the King of Shoa is untrue.

Resisting the Draft.

ATHENS, May 1.—The districts of Heimotine, Argolis and Praus resist the law calling out the extraordinary reserves.

Recruiting the English Army.

LONDON, May 1.—Nearly every regiment in the service has been recruited to the full number. Artillerists at Woolwich arsenal were excused from muster yesterday on account of work, repairing wagons and ambulances, consisting of field trains. Even 12 ton guns have been shipped to Portsmouth, and 400 tons of ammunition and arms are being shipped to Malta.

England's Reply to Russia.

VIENNA, May 1.—The British government is probably the only one that will return an official answer to Russia's representation that she is acting in accordance with the wishes of Europe. The British answer may possibly indicate the limits within which England would not consider her interests threatened, and would therefore remain neutral. The result of this seems to be that for the present there is an end to anything like concert; each power being intent upon its own interests.

English Navy Matters.

The Admiralty have made inquiry of Chatham dockyard authorities as to the earliest date the ironclad *Semiramis*, eight guns, and the iron corvette *Eurcpatio*, 16 guns, can be ready for service.

On War Footing.

Companies of Royal Engineers at the school of military engineering here are being made up to their war strength.

Jealousy of the Powers.

NEW YORK, May 1.—The *Times'* Vienna correspondent says: The whole course of proceeding even so leaves little doubt that deeply seated distrust among the powers has from the beginning been the cause why moderating counsels of powers could produce so little effect on Russia. Not one power feels sure of finding a trustworthy ally. There was not a single power who did not suppose every other power capable, if not of cooperating with Russia for its own special interest, at least of allowing Russia to have more or less her own way, on the understanding that its special interests should not suffer thereby. As things stand it may be well that from sheer selfish short-sightedness either one or another of these adverse interests will have to carry on an uphill fight or Europe will awake some morning with the din of a general conflict.

Condition of British Ironclads.

LONDON, May 1.—The *Times* says the *Hercules*, *Triumph* and *Inconstant* are all on dock and will require the labor of months to refit them for active service. The *Hercules* was probably the most efficient of our ironclads, and the *Inconstant* the fleetest cruiser, but the Admiralty have so arranged it the outbreak of the European war finds both these ships disabled. We are assured that the *Thunderer*, which represents the third great type of war ships, is ready for sea, but news from the Mediterranean has already told us her sister vessel, *Devastation*, needs docking to repair after a two years' cruise. Though we have more and better ships than any other Power, we cannot use the ships we have.

War Vessels Captured.

BUCHAREST, May 1.—The Turks captured the Roumanian war vessels *Fulgera* and *Stefanoalmare*.

All disposable Roumanian troops again moved to-day in the direction of Kalafat.

Conscripting the Provinces.

RAGUSA, May 1.—All Mussulmans in Bosnia and Herzegovina between the ages of 16 and 60, have been summoned to join the army in those provinces.

Kaiser William at the Russian Capital.

ST. PETERSBURG May 1.—Emperor William arrived this afternoon. All public buildings and many private houses were decorated. The Emperor was enthusiastically welcomed.

Anti-Catholic Demonstration.

PARIS, May 1.—Noisy anti-Catholic demonstrations were made this afternoon by students before various Catholic educational institutions. The police dispersed the crowds of students. Three were arrested.

Thomas J. Hubbard, a resident of Oregon since 1834, died at the agency on the Umatilla reservation on the 24th of April, aged 70 years. He was born in Kinderhook, N. Y., and came to Oregon as a gubsmith in the service of the Pacific Fishing and Fur Company of Boston, with which he maintained connection till it sold out to the Hudson's Bay Company. Hubbard then went to Yamhill and settled on the place now owned by Medorum Crawford. Afterwards he lived on a farm two miles north of Lafayette. In 1857 he went to Eastern Oregon and settled on Birch creek. He was one of the best known of the early pioneers.

A little child of an emigrant family just arrived at Weston, Oregon, while playing on the banks of Pine Creek, fell in and was drowned one day last week. The parents looked for it all day and just before nightfall found the body a little below town among some drift wood.

The Santa Cruz Murder.

SANTA CRUZ, May 1.—It is believed the murderers of DeForest are arrested, and under circumstances that will make their conviction certain. Sheriff Orton, Under Sheriff Hand, and City Marshal Liddell have worked day and night. On striking the track of the assassins, they telegraphed in every direction and sent citizens to watch the buildings, bridges, and localities where thieves do congregate. On the strength of a dispatch yesterday at Watsonville, Officers Jennings and Peckham, arrested Jose Obanalis, a State prison bird and an old denizen of this burg. This prisoner has partly confessed. At an early hour this morning, in the canyon back of Corrilitos, Orton and Liddel arrested Francisco Arias, another State prison boarder, having been sent from San Luis Obispo. Both prisoners are in jail at this place. It is found that Arias' overalls have spots of blood on them.

The Desert Land Act Swindles.

The *Tribune's* Washington special says the commissioner of the general land office believes the San Francisco dispatch stating that great swindles have been perpetrated in California under the act of last Congress relating to the sale of desert land, has been exaggerated. The act strictly provides that land preempted under it shall be desert lands, and before entries can be made at the land office the pre emptors will be requested to prove affirmatively that no acre is susceptible of cultivation except by irrigation. If any swindles have been attempted the land office has power to defeat them.

The Texas Pacific.

Some Southern men who have lately talked with the President say he is satisfied he will favor the passage of the Texas Pacific railroad bill. He has lately given considerable attention to the subject and the collection of official information regarding the country through which the road will pass. Friends of the project assert very positively that the President, in his message to Congress at the extra session, will endorse and recommend the necessary legislation to enable the road to be built. Southern men say he can endorsement of this road is to be part of the President's Southern policy, and is inclined is further evidence that he desires the people of the South to enjoy the same commercial advantages as those living in the North.

The most absolute neutrality guaranteed by the most scrupulous abstention, will remain the basis of our policy.

WEDNESDAY MORNING, MAY 2, 1877.

NO CHOICE OF METHODS.

Let us have patience, good humor and moderation. This advice may properly be commended to those who are viewing the political situation with distrust, or discussing the President's course with smothered indignation and resentment. Give things a little time. Judging from the vigorous assaults which Mr. Blaine and other prominent men have made on the policy of the administration, we might naturally expect that when Congress assembles, there will be a political earthquake; but perhaps men may by that time look at things differently. It is true that Blaine asserted in the most positive way that Packard must be recognized and supported. He declared it would be an impossibility for the new administration not to do it, and insisted that Packard's title to the Governorship was as valid as that which seated Hayes in the Presidential chair. Blaine and others have also expressed the warmest sympathy for Chamberlain and Packard, and in effect have censured the President for withdrawing the troops. Wade's letter was an expression delivered in his usual blunt and downright way of denunciation. No little uneasiness has existed among a large body of Republicans for several weeks. It is in the air. No observer could fail to notice it. But all this may not portend an explosion. A little reflection may put matters in a clearer light. The reasons why the old policy must be abandoned were not at first plain to all. The physical and moral impossibility of maintaining State governments longer by military force, all alike did not fully comprehend. They must comprehend it, however, as the situation opens more clearly to the view. But it is no time for sharp words. Mr. Blaine has undoubtedly spoken the sentiments of a multitude of Republicans. They have a right to their opinions and convictions. Four years ago Liberal Republicans were driven out of the party organization by proscription and intolerance. It was a mistake, the penalty of which was crushing defeat in the next elections. If disagreement now be carried to a like extreme, there will be a similar result. Hayes has done the only thing he could do. He had no control over the course of events. No power could stop the movement that was going on. Had the administration refused to do what it has done, the very same result would have taken place in a short time in spite of the administration. A time comes when a party must move on or be run over. This is the philosophy of the present political situation. Good sense will recognize it. Only stolid obstinacy will try to maintain a stand against the inevitable.

AN ALARMING SIGN.

At last there is real ground for alarm. We shall now be ruined by Chinese cheap labor, and no mistake. A few days ago at the graduating exercises of a high school at Hartford, a Chinese boy named Whang Kai Kah took the prize in declamation over six American boys. Here is an announcement that should at last arouse a lethargic country to a sense of a pressing and an increasing danger. For if our boys are to be beaten in declamation by the children of Mongol hordes, what field of employment and usefulness is left, that is not overshadowed with the upas blight of a deadly competition? Everything else could be borne, but this is too much. Whang Kai Kah assails our institutions in their most vital point. Heretofore we have been able to comfort ourselves with the reflection at least that stump speaking was the unchallenged prerogative of the American citizen. But even here we are at fault. Chinese cheap labor is preparing to crowd us off the stump and the platform. If there is anything in the world the ambitious American has been especially proud of, it is his preeminence over everybody else as a declaiming and speech-making animal. But by the unrelenting competition of the pagan Mongol we are now pursued to our last retreats; we are invaded and assailed within the very citadel of our vaunted superiority. And when we come to think of the immense multitude of "stumpers" that China is able to pour upon us, the prospect is simply appalling. This new danger ought to be met. Where are our far-seeing laboring lawyers and professors of declamation, those Knights of the Horny Hand, who a few years ago had an organization here to protect our citizens against the ruinous effects of pagan competition?

IMPORTANT TO SETTLERS.

New legislation relative to the public lands contains important provisions to which the attention of the public seems not to have been fully called. Under the act approved March 3, 1877, homestead claimants may make the required proof of residence and cultivation and their final affidavits before the judge, or in his absence, before the clerk of any court of record of the county and State or district and Territory in which the lands are situated; such proof to be transmitted by the judge or the clerk of his court, to the register and receiver at the United States district land office, with the fees allowed by law. The settler may thus avoid a journey to the land office, which in many cases is long and expensive.

Another act approved same date provides that when any person who has made a settlement on public lands under the pre-emption laws shall change his filing to that for a homestead entry, the time required to perfect his title under the homestead laws shall be computed from the date of his original settlement made under the pre-emption act. This enables him to obtain a clear title in less time and by a shorter method. These provisions are in a spirit of accommodation to the settler which ought to characterize all legislation in regard to the public lands.

St. Louis claims a population of 501,489; an extravagant absurdity. The highest vote ever thrown in the city was 40,987. This was in the Presidential election last November. At the recent mayoralty election, which was bitterly contested and every possible vote polled, the total was 40,805. Now if St. Louis has more than twelve inhabitants to the voter, it is the only city in the United States which contains so small a proportion of voting population. At the same rate New York would have over 2,000,000 inhabitants, Philadelphia 1,700,000, Chicago 750,000, and so on. The actual population of St. Louis is about equal to that of San Francisco, say 300,000, perhaps less; though San Francisco has polled more votes by 2,000 than the highest number ever thrown in St. Louis. Chicago's vote exceeds that of St. Louis by more than one-third, and in population Chicago is ahead in about the same ratio. On the St. Louis method of counting we should have in our town of Portland more than 30,000 inhabitants.

It is announced by the managers of the Northern Pacific Railroad Company that they will be in readiness with a bill, at the special session of Congress in June, for an extension of their land grant. We hope it may pass. It is true that the proposed route from Salt Lake to the Columbia river is the more direct one for Oregon, and a road built thereon would secure us in results which we could get in no other way. But there seems a possibility that the other subsidy would be more easily secured. If so, it should receive earnest support. But it can hardly get the support of Oregon unless assurance be given that Oregon shall receive the benefits of the road. In short, the road must be required to connect with Oregon. Our people will be universally in favor of any measure that will secure railway connection. A reasonable share of the public lands could not be disposed of in any way more useful to the country.

There are monopolies and monopolies, and every man has a monopoly who is doing a business that is in anybody else's way. You may easily recognize the average monopolist anywhere. If a man has more ability than some others and builds up a legitimate and prosperous business, promptly pays his debts, attends to his own concerns, makes money and doesn't divide with the "dead beats" that surround him, put him down in every instance for an unfeeling monopolist. You will never miss your man.

Dispatches have had much to say of late about the withdrawal of the troops from Alaska. The subject is a trifle threadbare, and we should be glad if the talented agent of the associated press would give us a rest. But let us never think of Alaska without gratitude to the President that he has taken the bayonet from the throats of the people and removed that awful menace to their liberties. With the recall of the troops from Alaska, the beautiful symmetry of the policy of "home rule" is complete.

"A nipper on Hayes" is what the Albany *Democrat* calls that letter of stale gush written to Tilden by Charles Francis Adams. That letter is about as formidable as the papers of the *quo warranto* proceedings. By the way, to repeat an inquiry made by the New York *Tribune*, are those papers mislaid?

The place is said to be "bespoke." And it is intimated that Denny's resignation was gently requested, all in good feeling you know, because there is a man who has "claims" which can't be put off longer. It is suspected he is a rural patriot.

Our good friend, H. Smith, of Harrisburg, has quite a bonanza, in a small way, in wheat and flour bought before the rise; and though a philanthropist, he considers the European war not altogether an unmixed evil.

CITY.

BODY RECOVERED.—Our correspondent, writing from Astoria under date of yesterday, sends the following: "During this forenoon Mr. Hill, who first found the swamped boat which the late Lieut. Knapp and his men took passage for Fort Stevens, discovered the body of a man which had floated ashore in a small creek near the mouth of the Skipanon river. Upon examination it proved to be that of Mr. J. S. Moore. On ascertaining this fact Mr. Hill left the body in charge of a watchman and proceeded at once to Astoria to inform his friends. Mr. Moore was an honored member of the order of the Knights of Pythias. The members of that society immediately chartered the steamer *Gen. Canby* and, with other friends of the deceased, went down to where the body lay, and, having conveyed it to town, are making the necessary preparations to pay the last sad rites to the remains of their lamented comrade. On the day of Mr. Moore's last visit to Astoria he had transacted business largely financially and had a considerable sum of money in gold currency and checks, (about $1,200) and also a valuable gold watch on his person when he started to return to the Fort. It is gratifying to be able to state that this is all saved for the benefit of his family, as his watch, purse and pocket book were found on his person when the body was discovered. Watchers are out for strict lookout by order of Col. Miller for the bodies of Lieut. Knapp and Dr. Andrews, but time enough has elapsed to expect them to be found afloat.

AN OLD MINER.—Mr. P. O. McDonald will be a passenger on the steamer *California*, which is to sail hence to-day for the north. He has purchased quite a large mining interest at the Cassiar diggings, and proposes to go up to engage in developing them. After reaching Fort Wrangel, Mr. McDonald will start up the Stikine river as soon as it is possible to reach the gold fields. Mr. M. is one of the oldest and most experienced quartz and gravel miners on the coast, having for many years been engaged in mining operations through the mountains and valleys of California and the gulches of Nevada. He is confident of the great richness and extent of the gold discoveries in Cassiar, but says the most serious obstacle in the way of developing these mines is the long cold winters and heavy frosts. He will be absent during the whole season. Mr. M. has promised to write an occasional letter to the OREGONIAN during his absence, and to keep our many readers thoroughly posted as to the mining outlook of that region of country.

THE MOUNTAIN LAUREL.—The British bark *Mountain Laurel*, Capt. Agnew, master, arrived at this port several days ago from Victoria. The vessel brought a full cargo of merchandise, principally machinery, from Liverpool direct to Victoria. All the cargo, with the exception of about 100 tons, was discharged at the last named port, when the *Mountain Laurel* sailed for Portland. A pleasant but rather protracted voyage was made between Liverpool and Victoria, 173 days being required to accomplish the passage. No accidents occurred during the long voyage, and scarcely any sickness. The *Mountain Laurel* is an iron vessel about eleven years old, and has a register capacity of 600 tons. Her carrying capacity is in the vicinity of 1,000 tons. She has not been determined yet what kind of cargo the vessel will carry hence, neither her destination.

DESIRES THE NAME.—Mr. Ellis Brewer, writing from Astoria under date of the 1st, says: "Referring to your issue of yesterday, I note your remarks concerning the press of the coming fishing season. With all due respect to your statements, I should like to know the source wherefrom you derive such invaluable information which prompts you to speak with such confidence. If you consider this request worthy of your attention I would respectfully beg of you to quote your authority for your remarks." The information desired by Mr. Brewer we respectfully decline giving, for the reason that in the paragraph referred to, there was no allusion, personal or otherwise to him; neither was anything said which could in any manner injure his business. Were it otherwise, the name would be cheerfully given.

IMPROVEMENTS CONTEMPLATED.—We understand that the Portland Water Company propose to make several decided improvements at their engine house. By this means it is intended to furnish the city with a better supply of the indispensable element this season than ever before. Among other improvements the company contemplate putting in operation a Worthington forcing pump, with capacity sufficient to force into the reservoir 3,000,000 gallons of water every 24 hours. The pipe leading from the works to the principal distributing reservoir will be eighteen inches in diameter.

TAMMANY DAY.—The several tribes of Red Men of Portland have concluded all necessary arrangements for holding a grand picnic and excursion on Tammany Day, which occurs on the 12th inst. Grounds suitable for the purpose have been selected about two miles above Portland on the eastern bank of the river. Excursionists will be conveyed to and fro by River steamers. The Northwestern Band has been engaged to furnish music. A splendid time may be anticipated, if the weather clerk will only smile propitiously on that day. A. B. Hallock has been chosen grand marshal of the day.

SAWMILL SOLD.—Owing to financial embarrassments, the sawmill constructed about two years ago by Messrs. Carter & Estes, a short distance north of the water company's works, in the southern end of the city, has been closed down. For months the mill has been lying idle, the owners not being in a situation to keep it in operation. A few days since the property was sold for the sum of $6,155. M. S. Burrell was the purchaser.

NUMBER OF ARRESTS.—During the month just past, 73 arrests have been made by the police of this city. Fifty were arrested on charges of being drunk and disorderly; 5 with vagrancy; 4 assault and battery; 3 larceny, and the remaining 8 with minor offenses.

WEDDED.—Mr. Winthrop Rowe, a former resident, returned very quietly recently as we now see the cause of it. A wedding took place on Monady and friend R. is made happy likewise a lady well known in Portland. Tender congratulations.

MAY DAY FESTIVAL.—This evening a May Day festival will take place at the Presbyterian church basement. Mrs. D. F. Smith, and others will give readings. A pleasant time is guaranteed all attending.

MEETING.—The Woman's Association of St. Stephen's chapel will meet this afternoon at 3 o'clock, at the usual place. A full attendance is greatly desired.

AMUSEMENTS.

ENGLISH OPERA COMPANY.—This company has been playing to immense houses at Victoria and Sound ports, and giving very general satisfaction wherever they appeared. The company will reach here Friday evening. Saturday evening the English and comic opera season will be inaugurated at New Market Theater. Wallace's charming opera of "Maritana" has been designated as the opening selection.

EGYPTIAN MYSTERY.—Last evening this wonder which has mystified the public for several days past, was unveiled at Ora Fino Theatre. A fair audience was present to witness the initial opening. The performance consisted of dramas, farces and allegories, the parts being assumed by a company numbering some ten ladies and gentlemen. The principal feature of the entertainment was the pictures thrown from beneath the stage by means of machinery adapted to the purpose. In the main they were executed finely. However, many defects were observed which will be remedied to-night. The acting is fair. With a decided improvement the performance will give better satisfaction.

DR. BRENAN AT MASONIC HALL.—The large and intellectual audience which greeted this able lecturer last evening at the above hall fully justified our expectations, and it is with pleasure that we can recommend the doctor to the lecture loving people of Portland, who on this occasion heartily welcomed him in this his first public effort in our city. His lecture was full of fine telling points, replete with instruction and entertainment, and clothed in eloquent language. His fine personal bearing upon the stage shows him to be a highly polished speaker, who knows enough to know what to say, when to say it, and when he is done to quit. His lecture to-night on "The Path of Life" is said to be an elegant discourse, full of useful knowledge and information. A large audience will be in attendance. Admission 25 cents; reserved seats 50 cents; at Gray's music store. Lecture at 8.15 P. M.

GRAND OPERA.—A very large and brilliant audience assembled last evening at New Market Theater, to witness the rendition of Gounod's great opera of "Faust." The occasion was the complimentary testimonial tendered Madame De Murska, as well as her last appearance in Portland. This great creation of the eminent composer was rendered in a style worthy of the artistes composing the cast. Madame De Murska personated her favorite role of "Margarette," supported very efficiently by Mlle Beckman, Theo. Habelmann, Sig L. Formilli and F. Lafontaine. In that very difficult role, it is but just to say, that the Madame acquitted herself with the greatest credit, and added, by her superb singing and admirable acting, another triumph to her long list. She displayed in some of the scenes a vocal power truly marvelous, and a depth and intensity of dramatic feeling truly admirable. The singing of Mr. Habelmann, as well as the acting of that very finished artiste, is worthy of the very highest praise, and did his reputation much credit. The singing and acting of Mr. Lafontaine and Sig Formilli was really excellent. The opera from opening to closing ran very smoothly, and a more enthusiastic and delighted audience is seldom seen at New Market. This morning the company will start up the valley, appearing at Albany this and to-morrow evening. They will also appear at Reed's Opera House Saturday and Monday evenings, the 5th and 7th.

The Wise Course in Rheumatism.

Rheumatic persons who have been induced to submit to depletion by blood lettings, or to take colchicum and other drugs of an equally pernicious character, will consult their well being by abandoning such insane procedure, and using as a substitute Hostetter's Stomach Bitters, which will infallibly afford them the much desired relief, and is absolutely safe. This benign vegetable depurent cools the blood by expelling from it the inflammatory elements which give rise to maladies of a rheumatic and gouty type, and rectifies disordered conditions of the stomach, nervous system and bowels which usually accompany them. As rheumatism has a tendency to attack the heart, the desirability of an early resort to the Bitters is obvious, since the danger is increased by every moment of delay.

We have often wondered whether there is a person in the country who does not know and appreciate the value of *Johnson's Anodyne Liniment* as a family medicine? It is adapted to most all purposes, and is the best pain destroyer that can be used.

Farmers and stock raisers have frequently told us that they have seen very good results from giving *Sheridan's Cavalry Condition Powders* to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for the sucklings.

LYON'S KATHAIRON makes beautiful, glossy, luxuriant hair, prevents its falling out or turning gray. It has stood the test of 40 years. Is charmingly perfumed, and has no rival.

HAGAN'S MAGNOLIA BALM preserves and restores the complexion; removes freckles, tan and sallowness; makes the skin soft, white and delicate. Its application cannot be detected.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment *that* cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your whole family a winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. CATARRH.

A Case of Six Years' Standing, accompanied by distressing symptoms, cured by the use of two bottles of

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER:

Gentlemen—Please allow me to testify to the great merits of SANFORD'S RADICAL CURE FOR CATARRH. For six years I have suffered greatly, particularly while troubled with a cold. The accumulation of mucus in my head and throat kept me constantly hawking and spitting, rendering my presence in company extremely embarrassing to myself and friends. Six months ago I was induced to try SANFORD'S RADICAL CURE. After using two bottles I find myself nearly, if not quite, permanently cured. I have since recommended over one hundred bottles with the greatest success.

Respectfully yours, WM. W. ARMSTRONG,
December 25, 1876. 159 Harrison Av., Boston.

CATARRH.

Helped her the most of any Medicine she ever used.

SIR.—Enclosed please find three dollars, for which send me three bottles of SANFORD'S RADICAL CURE FOR CATARRH. The last helped me the most of any medicine I ever used. Yours in respect,

MRS. LAURA S. CHASE,
Hardwick, Mass.
July 5, 1875.

CATARRH.

From George W. Shattuck, Esq., late Foreign Entry Clerk, Boston Custom House.

Gentlemen—I have been troubled with Catarrh for several years, but by the use of your remedy it has been greatly relieved. This summer I have been entirely free from it. I make use of it in my family for colds in the head and find it an effectual remedy. I can confidently recommend it to all who are similarly afflicted. Very truly yours,

October 26, 1874. GEO. W. SHATTUCK.

PERSEVERE

In the use of this remedy until cured. It contains the great healing elements of plants in their essential form as obtained by distillation.

Catarrh, in its extent and destructive force, stands next to consumption, and is closely allied to it; for in certain constitutions the transition from one to the other is only a question of time. It is therefore a singular thing that those afflicted with it should not make it the object of their lives to rid themselves of it. A single bottle of any remedy cannot, in the chronic stage, effect a cure, nor even bring the system under its influence fully. In many such cases the bones and cartilage of the nose are eaten away, the organs of hearing, of seeing and of tasting so afflicted as to be rendered useless, the uvula so elongated and inflamed as to produce a constant and distressing cough. The return to healthy functions necessarily be slow, under the most favorable circumstances, when so seriously afflicted; but as the evidence of its great value daily comes to hand, we become more satisfied that there does not exist a case of Catarrh that cannot be cured by a judicious and persistent use of SANFORD'S RADICAL CURE FOR CATARRH. The relief in every case obtained from the first dose is an indication of what will do when the system is brought constitutionally under its influence.

SANFORD'S RADICAL CURE is sold by all wholesale and retail druggists throughout the United States. Price, $1.

Chronic Pleurisy Cured.

MESSRS. WEEKS & POTTER:

Gentlemen—Having for many months past suffered with a very lame side, called by my physicians Chronic Pleurisy, caused by a former injury and strain, and for which I used many prescriptions and liniments, as well as the so-called rheumatic cures without the least benefit, my physician recommended one of your COLLINS' VOLTAIC PLASTERS, which, to my great surprise, relieved the pain and soreness almost immediately, and I have been able to attend to my household affairs ever since with perfect ease and comfort, whereas before the application of your invaluable plaster I was scarcely able to do anything. I consider them inestimable, and shall with pleasure recommend them to the afflicted. Yours respectfully,

Legal Tenders in Portland—buying 93¾; selling, 94¾.

Silver Coin—4@5 per cent. discount.

The local money market is moving forward in the ordinary channel, the return of the day for monthly collections bringing prominently into notice the fact that the circulating capital in the community is limited, and collectors in some instances report a want of promptness not noticed before for three months. The fact is, that while trade has been of very fair volume, outside of strictly mercantile circles the causes operating to induce an active circulation of money among the masses have not been active. Hence we find that while an ample supply of cash is held by the banks to meet all current demands at the same rates that have prevailed for months past.

From San Francisco the report comes that there is in that city a disposition to cut loose from all speculative transactions of that nature, let them shift for themselves and live or fail by their merits, and invest in more legitimate operations, is manifesting itself with considerable vigor. Coin is abundant in banks, scarce in circulation, and moderately cheap at 8@12 per cent.

In the local produce market the only exciting topic is breadstuffs, and without any special change in rates since our last report, the fact is apparent that the high rates are rapidly drawing to light about all the remaining surplus accessible at present. The outgoing steamer this morning carried nearly 9,000 barrels to San Francisco and about 3,000 centals wheat. Quotations are about as last given with a little more cautious feeling on the part of buyers who are keeping themselves posted and have had private advices of the same state of affairs as indicated in our dispatches.

New York Freights and Markets.

NEW YORK, May 1.—There was considerable activity at the wharves of California vessels today. The *Santa Clara* completed her loading and will sail to-morrow. Rates of freight remain firmer under continued prospects of a scarcity of vessels. The tonnage movement from Eastern Atlantic ports during the month of April amounted to ten ships, registering 16,385 tons, against seven ships of 10,228 in the corresponding month last year. The total movement for the past four months, 24 vessels registering 37,348 tons, against 28 vessels of 40,555 tons in the corresponding period last year. Of the number this year 22 were assorted against same number last year, thus showing that the movement of general merchandise has been about the same. The tonnage on the berth and engaged for lines at this and several out ports is not so large as at the close of last month, as departures have been greater than the number of ships offering. Still there is enough tonnage on hand to cover the necessities for the coming month, amounting as it does to 14 vessels, registering an aggregate of 22,127 tons. Of this number nine will be dispatched during the month of May. The steamer to sail to-morrow has a full cargo for the San Francisco market. To-day has been quiet; flour was in moderate demand; desirable winter wheat, extras were quoted 15@25 cents higher, but actual transactions were at a slight decline. Wheat very dull, no demand from any source; foreign advices were deemed favorable. The supply of prime quality was light, and the principal holders claimed full prices, but bids offered were on a lower basis. Hides, the high prices demanded checks business. Oats very quiet. Teas very quiet, another important auction sale being announced for Thursday. Sugar again higher.

The merchandise markets are generally dull, flour weak and demoralized, influenced in good part by severe reaction in wheat, and in part also by offers of recent speculative purchases for sale, and prices 15@25c lower. Wheat devoid of life. Cable and domestic reports were decidedly adverse; prices seriously depressed and unsettled; quoted off 5@10c nominally.

Eastern Crop Reports.

TOLEDO, May 1.—The *Blade* has extensive crop reports from the northwest, showing a gratifying prospect in the wheat regions, being better than for years, some say the best ever known. Corn will be sown more general than usual, but sowing of oats will be restricted. Hay and small fruits will be abundant nearly everywhere. Peaches will be a partial crop in Indiana, Illinois and Missouri, but almost a failure in Michigan, the great peach producing State.
